Emerald Planet Vanguard 15W LED Sensor Panel

Using slimline back-lit technology and a flicker-free driver, the Vanguard Premium Panel's technology allows light to naturally project through less material, ensuring the panel will not age, discolour or flicker over time.

Available with remote controlled dual motion & lux sensor options

- A very low-profile luminaire.
- Backlit Panel
- Sensor control with Remote Control
- Affordable high-efficacy LED panel
- No shadowing or aging
